"A" suffix denotes a single Weigh Sensor design with 10" tinned leads cable.

5,000 lb decks may be legally installed as a 2,000 lb capacity scale with 0.5 lb increments.

10,000 lb decks may be legally installed as a 5,000 lb capacity scale with 1 lb increments.

20,000 lb decks may be legally installed as a 10,000 lb capacity scale.

For custom or unlisted sizes and capacities of DS Series floor scales and accessories please refer to the online floor scale quotation generator found on the Avery Weigh-Tronix secure website.

DS Series - Options

Part Number	Product	List Price
AWT05-508041	48" Forklift Channel Kit (Installed at factory -inc pair of forklift channels and mounting hardware)	\$920
-	When remote mounting the junction box from scale, add charge for 25' weigh bar cables	\$220
-	Smooth top plate is same price as standard tread plate	
50063-0090	Stainless Steel junction box	\$415

DS Series - Accessories

Fork Lift Printer Options

Please see Printer Price page for options

De-rating Forklift Truck Capacity

The capacity rating plate on the forklift truck must be corrected when attachments are installed.

This is called derating the lifting capacity. This is a rules and regulations mandate. A calculation formula is provided below. It is the forklift owner's responsibility to contact their forklift truck manufacturer / distributor with this information to obtain a new capacity rating on the forklift's nameplate.

The FLSC forklift scale comes in an ITA Class II (16" high, 5000lb/2500kg) model. The discontinued QTLTSC forklift truck scale comes in ITA Class II (16" high, 5000 lb/2500 kg) and ITA Class III (20" high, 5000 lb/2500 kg and 10,000 lb/5000 kg) and Class IV (25" high, 10,000lb and 16,000lb) models. Each class comes in several widths for cleat type carriages. Measure the height and width of the forklift truck carriage. Select from the tables in this document, the appropriate width that best meets the dimensions of the forklift truck carriage. Use the weights, dimensions and the following formula to calculate the net lifting capacity of your forklift truck with a scale attached. Refer to the illustrations.

$$\text{Net Capacity} = \frac{A(B + C) - D(E + F)}{E + G + H}$$

A = Truck basic capacity, pounds

B = Inches from front wheel center line to fork face

C = Inches from fork face to truck rating point (usually 24")

D = Weight of the scale in pounds

E = Inches from front wheel center line to carriage face

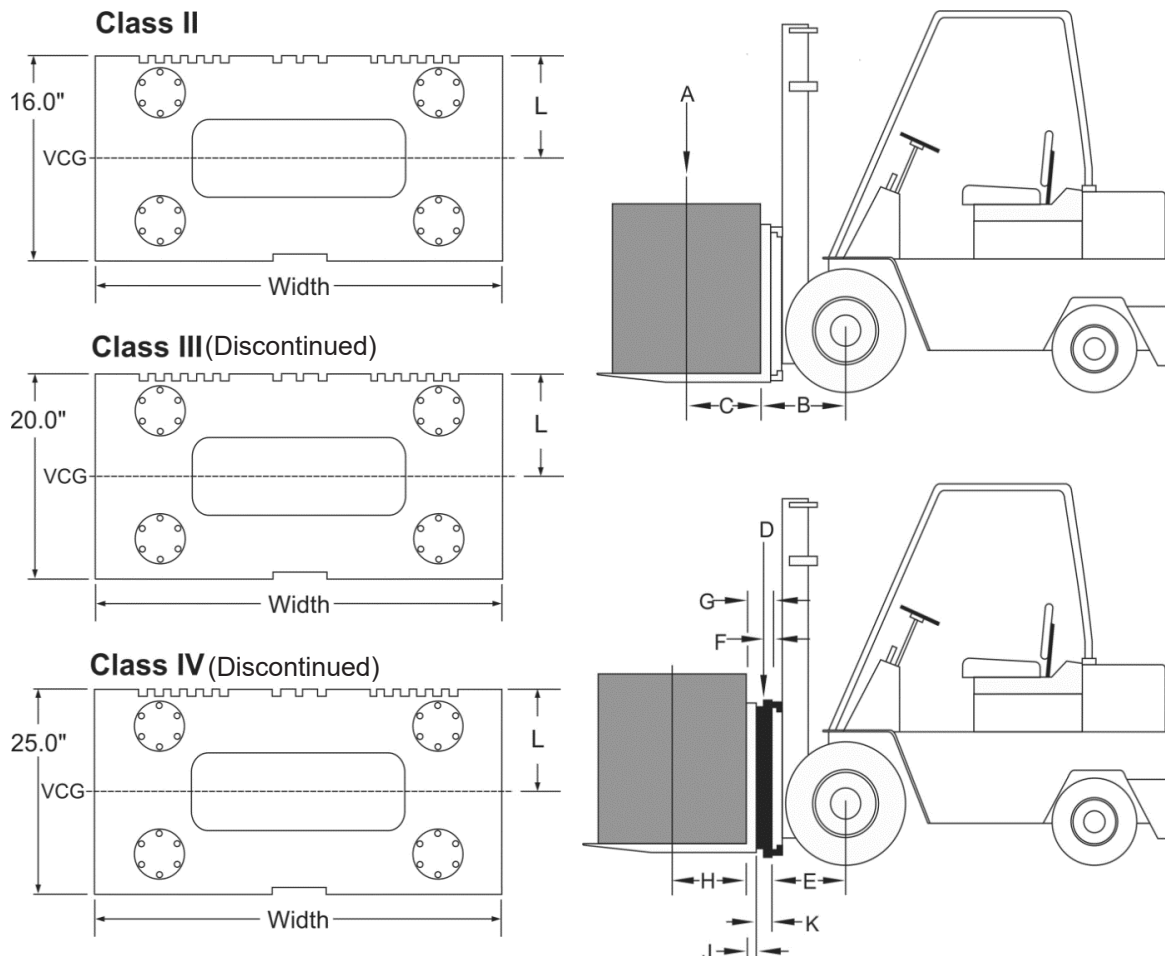

F = Inches from carriage face to scale center of gravity (CG) or horizontal center of gravity (HCG)

G = J + K (Inches from carriage face to rear face of load)

H = Inches from fork face to new truck rating point J = Thickness of fork

K = Thickness of scale

L = ½ the height of the scale or the Vertical Center of Gravity (VCG)

Effective Date: May 13, 2024

ZB210 Digital Communication Junction Box

Legal-for-Trade CC #18-072 Class III/IIIL 10,000 Divisions

Option with Truck Scale Purchase

Hard Wire Interface Between Truck Scale and Indicator

The ZB210-STVS replaces traditional analog junction boxes in truck scales. It is compatible with 1 to 5mV/V analog strain gauge weight sensors. It provides individual weight sensor data, which can be extremely beneficial for many applications. The ZB210 data permits the operator to review individual performances of each weight sensor. The ZB210-STVS also comes with Severe Transient Voltage Suppression on the junction box inputs for an added level of protection from lightning strikes.

To Order: This is an option kit for a new factory delivered truck scale. The correct kit part number is determined by the quantity of modules in the truck scale. Add the kit with list price to the truck scale order and it will replace the standard analog junction boxes.

For Multi Platform scales select the kit matching the total number of Weigh Bars in the system. For example AWT05-509339 can be used for a four module system with three independent scales.

Part Number	Product	List Price
AWT05-509336	ZB210 Truck Scale Kit, (1) j-box	\$1,665
AWT05-509337	ZB210 Truck Scale Kit, (2) j-boxes	\$3,075
AWT05-509338	ZB210 Truck Scale Kit, (3) j-boxes	\$4,555
AWT05-509339	ZB210 Truck Scale Kit, (4) j-boxes	\$6,050

Option Kit includes:

- The number of ZB210-STVS junction boxes specified
- Stainless steel sheathed interface cables to connect multiple junction boxes together
- One RS485 to RS232 converter for the ZM indicator (AWT05-509334)

All new truck scales come with an AC surge suppressor and a 50' stainless steel sheathed interface cable for the indicator. If needed, longer interface cables can be ordered per the truck scale option page. For pricing to retrofit existing scales see the ZB210 Digital Junction Box price sheet in the Junction Box section of the price catalog. Simply order the right quantity of ZB210-STVS, RS485 to RS232 converter, and interconnect cables if needed.

For retrofit truck scale systems refer to the truck scale options pages to find information on how many ZB210-STVS will be needed and then order from this page, along with an RS485 to RS232 converter. Also, be sure to verify whether or not existing interface cables need to be replaced.

Note: Truck Scale Discount Applies

ZB210 Digital Communication Junction Box

Legal-for-Trade CC #18-072 Class III/IIIL 10,000 Divisions

ZB210

The ZB210 provides unparalleled flexibility to strain gauge weight sensors. Each ZB210 assembly accepts up to four individual weight sensor inputs. Each weight sensor input of 1 to 5 mV/V is independently monitored. ZB210 employs a stainless steel enclosure and provides the indicator real time data.

To order: Select the model and quantity of ZB210. Add an RS485 to RS232 converter if needed

Part Number	Product	List Price
AWT05-509285	ZB210-SG Assembly	\$1,010
AWT05-509286	ZB210-LG Assembly	\$1,010
AWT05-509284	ZB210-STVS Assembly	\$1,635

The ZB210-SG is used with most floor scales. It has a bolted cover and smaller weight sensor cable glands sized for floor scale Weigh Bar cables.

The ZB210-LG is used with Batching Weigh Bars and MaxDec floor scales. It has a bolted cover and larger weight sensor cable glands.

The ZB210-STVS is used with truck scales. It has a latched cover and a secondary Severe Transient Voltage Suppression input board.

RS485 connection

The ZB210 provides unparalleled flexibility to strain gauge weight sensors. Each ZB210 assembly accepts up to four individual weight sensor inputs. Each weight sensor input of 1 to 5 mV/V is independently monitored. ZB210 employs a stainless steel enclosure and provides the indicator real time data.

To order: Select the model and quantity of ZB210. Add an RS485 to RS232 converter if needed

Part Number	Product	List Price
AWT05-509334	Kit, RS485 to RS232 converter, full duplex, for ZB210 to ZM connection	\$150

For retrofit truck scale systems refer to the truck scale options pages to find information on how many ZB210-STVS will be needed and then order from this page, along with an RS485 to RS232 converter. Also, be sure to verify whether or not existing interface cables need to be replaced.

Note: Indicator Discount Applies.

Postal and Shipping Scales

ZP900 Series, Digital Postal Scales - QUARTZELL™

The ZP900 postal scales are designed for demanding shipping applications where superior weight accuracy, speed and full integration into third-party software systems (shipping and HID POS) are paramount to increase operational efficiency. The ZP900 is highly configurable using the following link to the order form. This tool enables you to customize the ZP900 to your requirements by the below selecting alphanumeric choices.

ZP900 Order Form - Customization choices and configuration

Approvals: NTEP CC 15-035, Canada Weights and Measures AM-5985C and EC/OIML R76/2006-GB1-15.04

Model	Part Number	Product	List Price
ZP900 Series - 70lb, 9" x 12"	A *	ZP900, Up to 70 lb x 0.01 lb / 35 kg x 5 g, 9" x 12" base	\$1,435
ZP900 Series - 70lb, 12" x 14"	B *	ZP900, Up to 70 lb x 0.01 lb / 35 kg x 5 g, 12" x 14" base	\$1,485
ZP900 Series - 70lb, 12" x 14" BTS	C *	ZP900, Up to 70 lb x 0.01 lb / 35 kg x 5 g, 12" x 14" base with 10 balls top plate	\$1,765
ZP900 Series - 150lb, 12" x 14"	D *	ZP900, Up to 150 lb x 0.02 lb / 80 kg x 10 g, 12" x 14" base	\$1,515
ZP900 Series - 150lb, 12" x 14 " BT	E *	ZP900, Up to 150 lb x 0.02 lb / 80 kg x 10 g, 12" x 14" base with 10 balls top plate	\$1,795

* Choices from A to E include as standard, at no extra cost: Base and Display [H], Power Supply [F], Calibration [1-30], Software [O-P] and Communication Ports [Q-S] configuration.

Once you've selected the base size and capacity, you can proceed to customize the ZP900 scale further by selecting from the order form choices below.

Avery Weigh-Tronix Off-Road Truck Scales

Consult factory for pricing

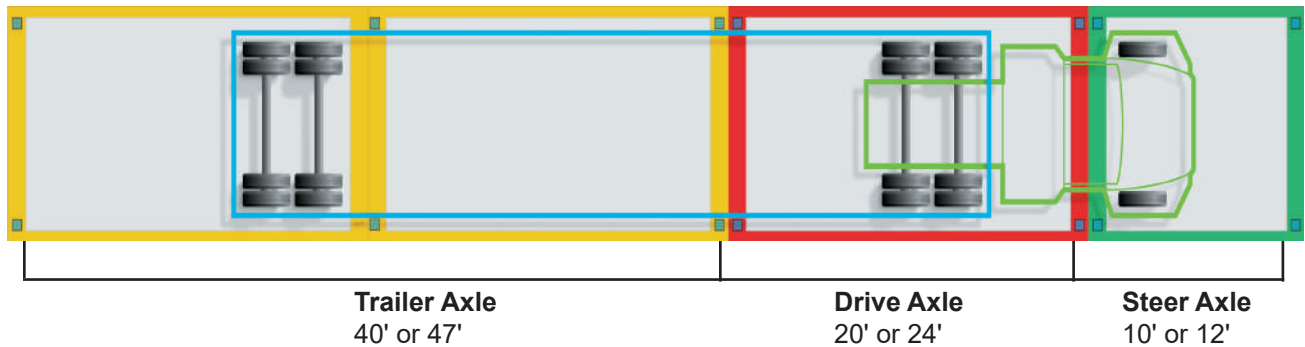

In order to receive a formal quotation, accurate vehicle specifications will be required e.g. Volvo A40, Caterpillar 777.

The scale will be designed after considering the wheel size, number of wheels, axle spacings, axle load ratings and maximum total gross vehicle weight.

Multiple Platform Truck Scale

Please refer to price sheet for appropriate model (BMS, BMC, IMXT and FCXT) and add together price of each platform size required.

Typical Configuration

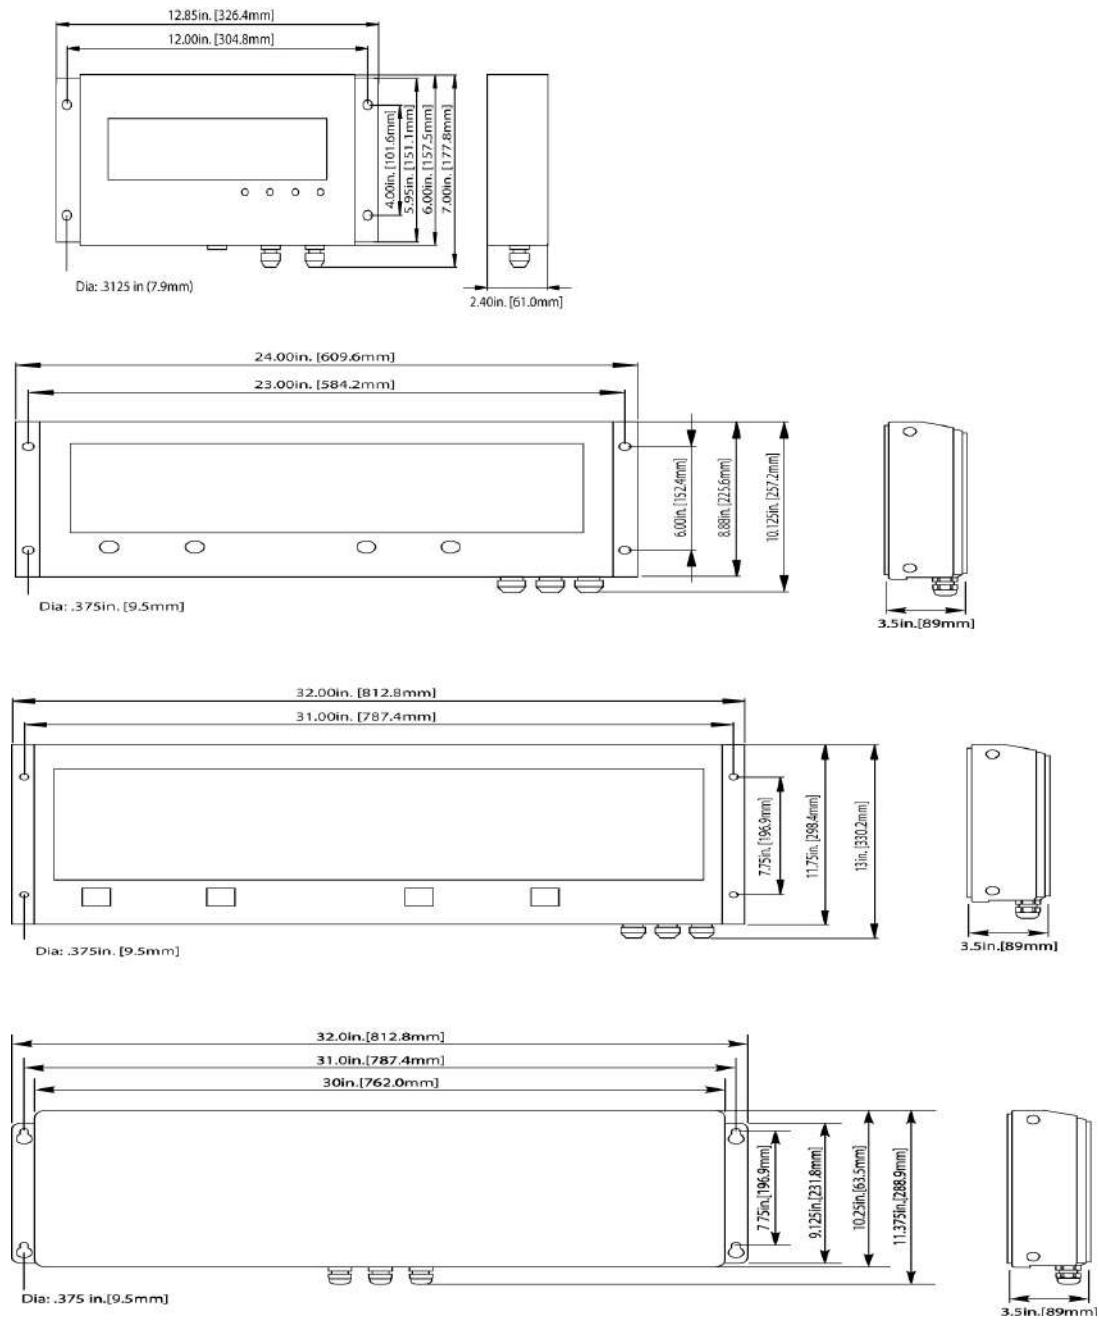

Remote Displays**XR Series LED**

AWT05-100856	Base model kiosk w/ printer + ZM615 + Sunshield + Keyboard (24"H x 24"W x 10"D)	\$11,760
AWT05-509342	Base model kiosk w/ printer + ZM615 + Sunshield + RFID reader + Intercom / Master Phone package (24"H x 20"W x 10"D)	\$14,940

Kiosk Options

Note: Options are installed at the factory when purchased at the same time as the base model kiosk

Part Number	Model	List Price
AWT05-509347	400W internal heater, DIN rail mounted	\$550
AWT05-509348	Cooling fan with thermostat, DIN rail mounted	\$495
AWT05-509430	(2) Controls for inductive loops NOTE: Loops not included	\$1,700
AWT05-509431	(2) Traffic light controls	\$245
AWT05-509432	Deep-hinged plastic door (provides additional protection for printed receipts)	\$845
AWT05-509428	Sliding acrylic door with stainless housing (provides additional protection for printed receipts)	\$1,495
AWT05-509349	RFID reader w/numeric keypad	\$870
AWT05-509471	(4) Shunt diode barriers MZB6xx Series - DIN rail mounted	\$2,470
AWT05-509187	Conversion Kit, 1310/WI130 to ZM5XX/ZM6XX Panel Mount, w/Sunshield	\$750
AWT05-509188	Conversion Kit, 1310/WI130 to ZM5XX/ZM6XX Panel Mount	\$280
AWT05-509383	Indicator sun shield (recommended for outdoor applications, included on new ZM Kiosks)	\$300

System Options

Part Number	Model	List Price
AWT25-500426	Inductive loop for vehicle detection system (one required for each scale approach, typical system has two)	\$580 ea
AWT05-508943	LED Red / Yellow / Green stack light, DC Powered	\$485
AWT05-509434	LED Red / Green mini traffic light, DC Powered	\$570
AWT15-500678	LED traffic light assy - 8" red and green (includes pole mount kit), AC Powered	\$1,765
27293-0132	Base only, cast aluminum	\$975
27365-0010	10' pole only, schedule 80 aluminum, 4.5" outside diameter	\$735
AWT05-100186	Pole Mount Kit for ZM Kiosk Includes: Cast aluminum base, anchors, 10' aluminum pole (schedule 80, 4.5" OD), enclosure mounting plate and bump shield, cast aluminum pole top, all mounting hardware	\$2,975
AWT25-500417	Proximity card	\$20

Kiosk Printer (No Indicator)

Lockable outdoor enclosure (20"H x16"W x 8"D, painted steel) and Ethernet kiosk thermal receipt printer with cutter/presenter (includes one large paper roll)

Part Number	Model	List Price
AWT05-509410	Kiosk printer	\$5,560
AWT05-509423	Kiosk printer + push button print	\$5,795
AWT05-509426	Kiosk printer + RFID reader	\$6,150
AWT05-509425	Kiosk printer + Intercom / Master Phone package	\$9,750

Kiosk Printer Options

Note: Options are installed at the factory when purchased at the same time as the kiosk printer

Part Number	Model	List Price
AWT05-509347	400W internal heater, DIN rail mounted	\$550
AWT05-509348	Cooling fan with thermostat, DIN rail mounted	\$495
AWT05-509432	Deep-hinged plastic door (provides additional protection for printed receipts) (provides additional protection for printed receipts)	\$845
AWT05-509428	Sliding acrylic door with stainless housing	\$1,495
AWT20-503331	Thermal paper roll, 3.15" (80 mm) wide x 660' (201 m) long, 6" (152 mm) diameter	\$35
	Stainless steel enclosure	Consult Factory
AWT05-100187	Pole Mount Kit for Kiosk Printer Includes: Cast aluminum base, anchors, 10' aluminum pole (schedule 80, 4.5" OD), enclosure mounting plate and bump shield, cast aluminum pole top, all mounting hardware	\$3,030

Peripheral Controls

Compact, simple, and easy-to-use intercom, RFID reader, or loop detector control boxes

Part Number	Model	List Price
AWT05-509438	RFID reader mounted on outside of ZM5/6 stainless enclosure	\$2,335
AWT05-509439	Intercom mounted on outside of ZM5/6 stainless enclosure enclosure plus Master Phone for scale house	\$5,060
AWT05-509462	Wireless communication kit, RM310-SD0, 802.11 radio (includes internal RM310 kit for ZM Indicator), mounted inside ZM5/6 stainless enclosure	\$1,615
AWT05-509470	(4) Shunt diode barriers MZB6xx Series - DIN rail mounted w/Enclosure	\$2,910
AWT05-509392	Traffic Light / Loop Detector control box that includes ZM D/C option card (for 1,2 or 4 individual lights)	\$3,550

Note: Indicator Discount applies

Weighline/RLP

Weighline™ Railroad Track Scale
RLP Modular Pitless Railroad Track Scales
Intermediate Kits

Weighline™ Railroad Track Scale

A range of unique railroad track scales using Weighline rail technology. Specially machined and instrumented rail provides a series of short weighbridges that are used in combination to weigh railroad cars, either full draft or two draft.

Standard systems provide an axle capacity of 80,000lb (40,000kg) and are suitable for weighing maximum car weights of 320,000lb (160,000kg). Each individual rail section measures 5' 10", has a capacity of 40,000lb (20,000kg) and is pre-drilled to accept standard rail joint bars or compromise bars at installation. Weighline sections are available in rail sizes for 40lb to 175lb with variable capacities. Consult factory for pricing on special rail sizes, capacities and lengths. Cables available in 15', 30', 60' and 120' lengths.

*Note: Scale capacities are determined by weight capacity or restrictions for a specific rail profile. The ZM605 Indicator is recommended. A multi scale input card is required to weigh in Full Draft mode. Weighline specific static weighing software to go between full draft and two draft weighing is supplied at no charge, please consult factor for other software options.

Two Draft

Part Number	Product	Ship Weight		List Price
		lbs	kg	
Model WLS-TD-115RE	* (accuracy ±0.4% or ±300lb (150kg), whichever is greater)	1,250	567	\$23,970
Includes:				
47008-0011	4 x 115 lb/yd rail assemblies, 5' 10" (1.78m) long			\$5,990
AWT25-501281	4 x 30' connector cables			
13949-0122	1 x J-box with surge protection			
48988-0013	2 x Joint bar kits			

Full Draft

Part Number	Product	Ship Weight		List Price
		lbs	kg	
Model WLS-FD-115RE	* (accuracy ± 0.25% or ±200lb (100kg), whichever is greater)	2,450	1,111	\$47,940
Includes:				
47008-0011	8 x 115 lb/yd rail assemblies, 5' 10" (1.78m) long			\$5,990
AWT25-501281	8 x 30' connector cables			
13949-0122	2 x J-box with surge protection			
48988-0013	4 x Joint bar kits			

*Not currently certified as legal for trade.

A straight, stable track for one car length on both sides of the scale will provide best results.

Note: Other rail sizes available - please consult factory

Optional Weighline Connector Cables

Part Number	Product	List Price
AWT25-501310	60' connector cable	\$310
AWT25-501311	120' connector cable	\$490

RLP Modular Pitless Railroad Track Scales

NTEP COC 96-071

RLP consists of a range of modular, low profile railroad track scales designed to comply with Cooper E-80 loading, AAR Scale Handbook and NIST Handbook 44 requirements for commercial weighing. Each model's list price includes the weighbridge modules, load cells, load cell mountings and grout plates, weighbridge rail clips, anti-creep angles and summing boxes with surge protectors. The model list prices do not include load cell cable (summing box to indicator), instrumentation, weighbridge rail, approach rails and mounting hardware, intermediate rails with mounting hardware and anchor bolts.

Scales are designed for 115# rails

Recommended indicator: ZM605

Anchor Bolts

Note: Anchor bolts are optional and not included in kits

Part Number	Product	List Price
29486-0028	Embedded	\$55
48978-0015	Drill and Grout	\$65

1. Grout-plate kits include load cell base plates and nuts and washers for anchor bolts. These are included in weighbridge price.

2. Anchor bolts are not included in kits. Embedded anchor bolts must be used for load cell mounting plates. Either embedded or drill and grout type anchor bolts may be used on the approaches and intermediate sections.

3. Approach Apron minimum lengths are called out in section 2.22.6 of the AAR Scale Handbook. RLP-12 single platform scales (multiple-drafts) must have approaches at least 50' long (i.e. two of part number 47707-0023). Dual platform scales (single draft) require 25' approaches (i.e. two of part number 47703-0015).

4. Approach and Intermediate kits include rail plates, rail clips, washers and nuts for anchor bolts, and anti-creep angles.

5. On the Flush Deck version, the center deck and main beams are built up to be approximately level with the top of rail. How the approach and intermediate sections are brought up to top of rail height is left to the contractor, as is the provision of side walls if required. A minimum of 18" side access is recommended.

THE PLANS FOR ALL RAILROAD TRACK SCALES INTENDED FOR CERTIFIED APPLICATIONS MUST BE APPROVED BY THE SERVICING RAILROAD PRIOR TO CONSTRUCTION. This is the installing distributor's responsibility. Most servicing railroads require the following: dimensional site plans showing location of scale, a soil report (usually provided by the customer), foundation plans, scale plans and a copy of an NTEP COC if applicable.
